

PROGUARD+: THE STEP BY STEP GUIDE

Multi Surface Cleaner - Fighting Bacteria and Viruses

1. MEASURE

Measure concentrate in bottle or measuring jug (as required).
10% ProGuard+ to 90% water
20% ProGuard+ to 80% water
30% ProGuard+ to 70% water

PLEASE NOTE: Always add water to spray bottle first, followed by concentrate.

2. SHAKE

Shake to mix well.

3. SPRAY

Spray onto area to be treated and leave between 30 seconds to 5 minutes.

4. WIPE

Wipe clean with a dry porous cloth.

PLEASE NOTE: ProGuard+ can be left to coat areas that do not need wiping like grab rails.
